

# Chemicals Industry Solution

## How Can SAP® S/4HANA Solutions Enable You To Change The Game?

The value from SAP® S/4HANA comes through simplification of the user experience, architecture, and process.

SAP® S/4HANA empowers frontline users with an end-user-centric consumer-grade experience. It's the frontline employees that add value to clients. SAP is driving simplification and innovation in how business users work with a consistent, role-based user experience available on any device. SAP® S/4HANA has a simplified data model that provides an advanced digital data architecture, which in turn provides, in real time, a single source of the truth for both transactions and analytics. This enables extensive flexibility to adapt to changing business models, such as simulating the impact of business reorganizations in minutes rather than days.

**10X Faster MRP Planning Run**

**Up to 10% Reduction In Total Manufacturing Cost**

### What Are The Benefits?

- ✓ Run Simple (master complexity).
- ✓ Manage risk and ensure compliance.
- ✓ 10%–15% reduced asset service and maintenance costs.
- ✓ Faster adoption to business changes.
- ✓ Lower testing costs.
- ✓ Reduce data footprint.

### Why SAP®?

SAP® S/4HANA provides reengineered and simplified business processes for chemical companies which can yield significant benefits transforming the execution from multi-step, batch driven processes with latency in terms of key performance indicators to real-time processes with actionable insights.

## What Do SAP® Solutions Help Customers Do?

### Product Innovation and Integrity

- Project and portfolio management
- Compliant product lifecycle management
- Quality assurance
- Corporate sustainability
