ASL Steel has a solid business with SAP Business One

ASL Steel Division has been operational since 1977 and has been managed by Ramco Group since 1988. Our product range is based around stainless steel whether in trading, manufacturing or fabrication. We hold the largest stock of stainless steel in Kenya with an inventory that includes; stainless steel sheets, stainless steel rods, tubes, wires and pipes. ASL Steel is also a Kenyan manufacturer of numerous specialist steel products that are manufactured for a broad range of industries and use.

Before: Challenges and Opportunities

- Manual system with uncertainty around stock levels
- It was difficult to plan ahead as information was not available instantly

Why SAP and Partner

- Seidor Africa has fast installation without any delays
- Seidor Africa is always available for assistance
- SAP Business One has numerous currencies making it easier to use

After: Value-Driven Results

- Stock is always available on the balance sheet
- Cost of Sales can now be measured 100%
- Get the Trail Balance in one click

“ *SAP Business One has strengthened our information and the way we do business direction.”*

Mukesh Bhudia. CFO. ASL Steel.
