SAP Business One has ensured a competitive edge for Agiliss

Founded in 1954, Agiliss, previously known as Tiremaster Foods Division, has grown from a small corner shop to a multichannel retailer. Today, it is one of the largest Fast Moving Consumer Goods (FMCG) companies in Mauritius with a portfolio of hundreds of quality products.

Before: Challenges and Opportunities

- Issues with previous system in terms of lack of reporting and could not manage some of the basic process operations
- We have numerous divisions, each working on their own systems and no synergy. This made accurate reporting difficult
- Tough competition in Mauritius makes it a necessity to be able to adapt quickly, and track orders accurately

Why SAP and Partner

- Seidor Africa has a strong global footprint and their knowledge of the SAP Business One System is remarkable
- Seidor Africa has tested numerous add-ons for future projects to be able to grow with your business
- SAP Business One was the right product for us as it is fit for use in our business and ticks majority of the functionality boxes all in one product
- The inventory management and supply chain capabilities has made life easier

After: Value-Driven Results

- Seamless integration between departments which has eased work-load and created efficiency within the company
- Better tracking of landing cost
- Increased the speed of our approval process throughout the business

SAP Business One assist in reporting on various different divisions into one report."

Kentish Bhowaneedin, Operations and IT Manager, Agiliss Ltd.
