SAP Business One is the best choice ERP Software for Deluxe Inks

Incorporated as a company in the year 1998, Deluxe Inks Limited (DIL) became a major player in the ink industry within a short span of time. A well-equipped manufacturing unit was set up in the industrial area of Nairobi, Kenya. The factory has sophisticated production equipment and a technical laboratory with the latest testing instruments.

Before: Challenges and Opportunities

- They needed a system that could handle the growth of the business due to an increase in exports
- Lack of a system that could handle multi-currency posed challenges in reconciliation and proved to be time consuming for the accounts department
- The change of a system was recommended by the auditors who requested the company to change to SAP

Why SAP and Partner

- The company required a system that could handle multiple transactions in an efficient manner
- User friendly system
- The company required a system of integrity where business rules could be set up to avoid errors as well as ensure that data could not be manipulated
- System with real-time reporting to aid in better and faster decision making

After: Value-Driven Results

- Seamless integration between departments which has eased work-load and created efficiency within the company
- Real-time reporting through reports that are easily available within the system
- Reduction in errors

SAP Business One is fast, accurate and user friendly."

Mr. Purushothaman, Finance Manager, Deluxe Inks Limited.
