## IFS caters to a complex market with SAP Business One

As one of the fastest growing facilities management services providers in Africa, IFS provides catering, housekeeping, laundry and maintenance services to mining companies in remote, logistically challenging locations. With 22 companies across 8 countries and manually intensive operations, the group was looking to technology to create competitive advantage and chose SAP Business One.

### Before: Challenges and Opportunities

- Complex organisation with 22 companies operating in 8+ countries
- Needed multiple currency reporting
- Operationally challenging and manually intensive business

### Why SAP and Partner

- SAP Business One is efficient, secure, easy to use and to train new users
- SAP Business One integrates easily with external systems
- Seidor Africa's values, approach and interpersonal interactions make them a pleasure to work with

### After: Value-Driven Results

- SAP Business One supports multiple currencies and is inherently scalable
- The detailed information that can be extracted provides a huge amount of strategic insights into the business

*“IFS, Seidor Africa and SAP Business One, if those three can grow together, then I believe we can achieve our goal.”*

Jon Lee, Finance Manager, IFS International Facilities Services.
