SAP Business One is driving Multiple Solutions Ltd forward

Multiple Solutions Limited is a fully Licensed Logistics, Customs Clearing and Freight Forwarding Company with registered office based in Mombasa, Kenya and has a branch office in Nairobi city and at Jomo Kenyatta airport, Malaba, Bibia, Elegu, Katuna, Cyanika, Nimule, Kampala, Kigali, Rwanda and Busia.

Company part of Multiple Group of Companies, largest logistics service provider in East and Central Africa.

Before: Challenges and Opportunities

- The previous system was very manual and data entry was not always accurate due to human error
- It took a lot of time to get all the correct information in place to be able to deliver reports to our stakeholders

Why SAP and Partner

- We were introduced to SAP Business One by our holding company who has been using the system for numerous years
- Seidor Africa was the partner to sign up with as their knowledge of SAP Business One and the service they provide to their customers is first class

After: Value-Driven Results

- First thing in the morning, we can now log onto our machine and see exactly what our costs are and get full reports on the previous days numbers
- No manual work needed, as everything is automatic and instant

"We expect to touch the sky with SAP Business One."

Neha Maru. Financial Controller. Multiple Solutions Ltd.
