## SAP Business One makes Rhombus Concrete run smoothly

Rhombus Concrete was founded in 2014 and is now one of the leading manufacturer of premixed concrete in Nairobi, Kenya. With the full range of pre-mixed concrete products, technical resources, consistently high environmental performance and a wealth of practical experience within the building industry, it truly is a company that is doing well.

### Before: Challenges and Opportunities

- Manual Systems that took a lot of time
- Rhombus Concrete was growing and their current systems could not handle the requirements

### Why SAP and Partner

- Seidor Africa's team is always ready to assist in the shortest time possible
- Rhombus Concrete needed a system that can grow with them and SAP Business One was the obvious choice
- The training done by Seidor Africa was thorough and Rhombus Concrete was up and running quickly

### After: Value-Driven Results

- Advanced Asset Management makes it possible to pull an asset report at any time showing real time results
- Accurate information is available instantly
- Being cloud based, you do not need to be in the office to get your work done.

*"SAP Business One is the backbone of our business."*

Irene Njeri, Finance Manager, Rhombus Concrete.
