SAP Business One has improved operational efficiency for Sian Roses

Sian Roses is the leading Kenyan producer of high quality Roses. The group of three flower farms, all located in Kenya, produces a wide variety of Roses of the highest quality with a portfolio of more than 50 varieties of both standard and spray roses. The Sian Roses brand is synonymous with quality, reliability and responsibility.

Before: Challenges and Opportunities

- Previously reporting was taking up to a week which slowed down planning and hampered growth.
- We needed to be more flexible and agile in our decisions making

Why SAP and Partner

- SAP Business One is one of the best systems available to run our operations
- With Seidor Africa having support locally and in country, it was an easy decision to go with them.
- There was no break in production with the implementation of SAP Business One

After: Value-Driven Results

- We are now able to process information faster thereby respond to customer requests quicker
- Reports are now done instantly and we have been able to grow our production
- We can now focus on the bigger picture of realizing customer satisfaction
- Everything is easy because it is all automated by SAP Business One

"SAP Business One has made working life easier."

Haron Koimur. Managing Director. Sian Roses.
