Superfoam sleeps soundly at night with SAP Business One

Superfoam is a mattress manufacturing company that was launched in 1983 with the vision of providing Kenyans with a world class sleep solution. Superfoam believes that every Kenyan should have access to quality sleep products made in Kenya. With a strong distribution network throughout Kenya, Superfoam products are widely available with major branches located in Nairobi, Ruiru, Mombasa, Kisumu, Meru & Eldoret. Superfoam has a wide product portfolio of foam mattresses of various densities/duty.

Before: Challenges and Opportunities

- We were in need of a system that is able to manage our logistics, manufacturing, accounting, customer service and more in one

Why SAP and Partner

- We were in need of software that could limit the risks of inaccurate information while being able to grow with the company in the years to come
- Seidor Africa came to us with a clear strategy in mind and took the time to talk to us and understand our business before implementation started

After: Value-Driven Results

- Everything is now integrated, and with a click of a button, I am able to see dashboards and drafts from any point in the business
- SAP Business One has made it easy for us to get what we need when we need it
- SAP Business One is a key part of our strategy moving the business forward

We believe our future is dependent on reliable and accurate information gained by implementing SAP Business One."

Mike Fischer. CEO. Superfoam.
