Vertice MedTech Group is able to do fast implementation with SAP Business One

Vertice MedTech Group was formed in May 2018 following a strategic partnership between the Amayeza Group and South African based investor, Ethos. We are a scaled and diversified group of specialised medical service providers committed to bringing new, first-rate technologies to a wide spectrum of medical practitioners. We provide the latest devices, software, processes and procedures that facilitate high care and quality treatment for all patients.

Before: Challenges and Opportunities

- We require a platform where we can integrate all our businesses as we acquire them
- To standardise our accounting system throughout the group

Why SAP and Partner

- Seidor Africa has over 20 years experience within the ERP field
- Seidor Africa knows what we want and implementation was fast and effective
- SAP Business One is easy to adapt to our different business needs while keeping the reporting and financial aspects the same

After: Value-Driven Results

- SAP Business One gives us accurate raw data from where we can create our own solutions for our customers
- Fast implementation assists with quick turnaround in new acquisitions

"SAP Business One supports our strategy."

Patric Godard, CEO, Vertice MedTech Group.
